ImageNow Client Installation - New

## ImageNow 6.7 Client Installation - New

**Download the client installation file at the following link:**

[https://www.maine.edu/downloads/ImageNow/6-7Installers/ImageNow%20Client%206.7.0%20\(Patch%20Build%203100\).exe](https://www.maine.edu/downloads/ImageNow/6-7Installers/ImageNow%20Client%206.7.0%20(Patch%20Build%203100).exe)

- You may be prompted to log into the download site with your UMS credentials
- Make sure to save the client installer to an easily accessible location
- The installer file can be deleted once the upgrade/installation is complete

**Launch the client installer:**

- For Windows Vista, 7, and 8: Right-click on the file downloaded in the previous step and select "Run as administrator"
- For Windows XP: Double-click on the file downloaded in the previous step

If an *Open File - Security Warning* window appears, click on *Run*

- Click on "I accept the terms of the license agreement"
- Click on *Next*

## ImageNow 6.7 Client Installation - New

On the Custom Setup page:

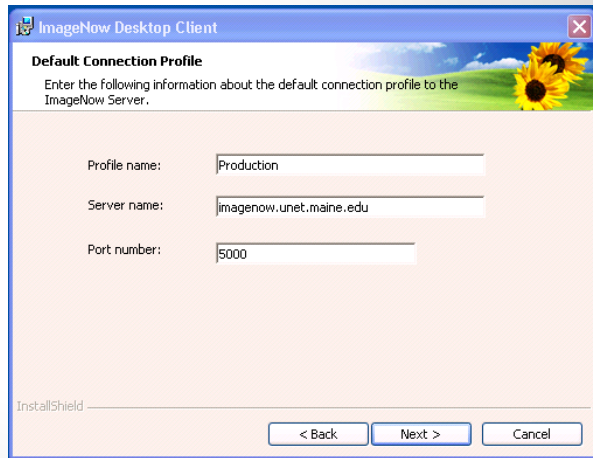

- Make sure that all components are set to be installed using the dropdown options
- No "red Xs" should be showing to the left of any of the components, including Business Insight Integration
- Click on *Next*

## ImageNow 6.7 Client Installation - New

On the Connection Profile page:

- Fill in the fields to match the information provided in the screenshot
- The Server Name and Port Number are the key fields - the Profile Name can vary but should indicate that it is for the Test Environment
- Click on *Next*

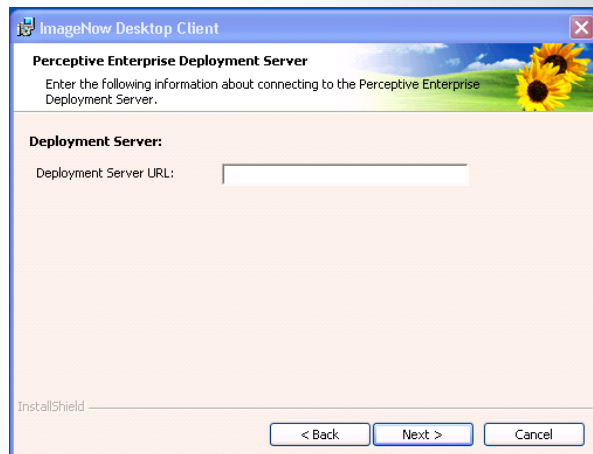

The screenshot shows a dialog box titled "ImageNow Desktop Client" with a close button (X) in the top right corner. The main heading is "Default Connection Profile". Below the heading, there is a sub-heading "Default Connection Profile" and a descriptive text: "Enter the following information about the default connection profile to the ImageNow Server." The dialog contains three input fields: "Profile name:" with the text "Production", "Server name:" with the text "imagenow.unet.maine.edu", and "Port number:" with the text "5000". At the bottom left, there is a small "InstallShield" logo. At the bottom right, there are three buttons: "< Back", "Next >", and "Cancel".

On the Perceptive Enterprise Deployment Server page:

- Leave the Deployment Server URL blank
- Click on *Next*

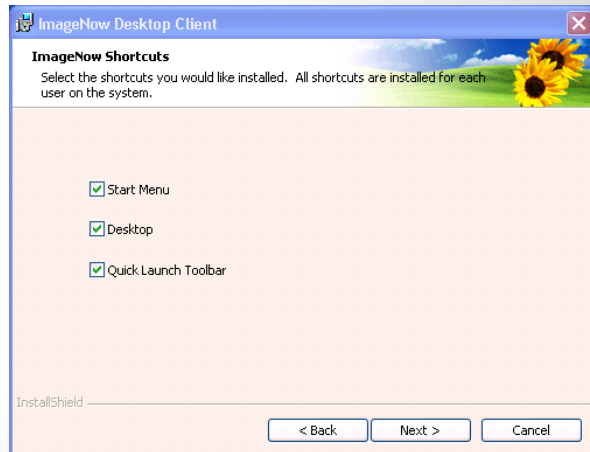

The screenshot shows a dialog box titled "ImageNow Desktop Client" with a close button (X) in the top right corner. The main heading is "Perceptive Enterprise Deployment Server". Below the heading, there is a sub-heading "Perceptive Enterprise Deployment Server" and a descriptive text: "Enter the following information about connecting to the Perceptive Enterprise Deployment Server." The dialog contains one input field: "Deployment Server URL:" which is currently blank. At the bottom left, there is a small "InstallShield" logo. At the bottom right, there are three buttons: "< Back", "Next >", and "Cancel".
